Summary

Entry level Software Engineer with knowledge in front-end and web technologies. I have a solid foundation in **HTML**, **CSS**, and **JavaScript**, as well as experience with front-end frameworks such as **React/Next.js**. Proficient in coding, translating, and integrating data from Restful APIs and implementing UX/UI best practices. Strong knowledge of web technology, webpack, babel, debugging, and optimization techniques to create responsive designs and enhance user experience. I am excited to continue to grow my skills and knowledge in the field.
